SmartRack Bolt-Down Kit - Secures stabilizing brackets or plates to facility floor

MODEL NUMBER: **SRBOLTDOWN**

Highlights

- Bolt-down Kit for cabinets and racks
- Enables SmartRack to be secured to concrete floor
- Provides extreme stabilization and security
- Includes required nuts and bolts

Package Includes

- Four concrete inserts, four bolts, four fender washers

Description

Tripp Lite's SmartRack SRBOLTDOWN provides extreme stabilization and security for cabinets and racks. The bolt-down kit enables SmartRack to be secured to a concrete floor. SRBOLTDOWN includes four concrete inserts, four bolts and four fender washers.

Technical Notes:

We recommend using a 1/2" concrete drill. Hole must be 4.5" to 4.75" deep. Mark the hole, drill the hole, then tap the anchor into the hole. Thread the bolt into the anchor a few threads only. Tap the bolt with a hammer (with anchor attached) until it bottoms out in the hole, then tighten the bolt.

Features

- Provides extreme stabilization and security for cabinets and racks
- The bolt-down kit enables SmartRack to be secured to a concrete floor
- Includes four concrete inserts, four bolts and four fender washers
